About portable cabins.

Our portable cabins are adaptable and can be tailored to your specific needs, whether you require open-plan spaces or partitioned rooms. From office spaces and classroom blocks to construction site facilities, our extensive range of portable cabins can meet all your requirements.

Designed for easy transportation and relocation, our portable cabins offer exceptional flexibility. They can be repurposed and reconfigured for use on different sites and in a variety of settings, making them a smart, long-term solution for changing project needs while delivering significant cost savings.

Sustainability.

We have pledged to become a net zero company by 2040. Recognising the pressing global challenge of climate change, sustainability is a big part of Portable Building Sales and is deeply embedded in everything we do.

2040 NET
ZERO

Portable cabins are a greener building choice:

Reusable by design

Lower carbon footprint

Less disruption, less waste

Ideal for the circular economy

Steps we are taking to promote a greener future:

Zero to landfill

Factory & site efficiency

Low-carbon investments

Staff engagement

Stock portable cabins.

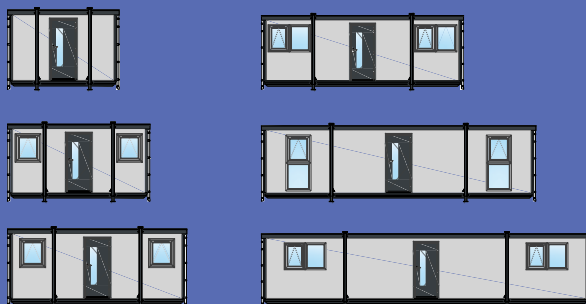

Our portable cabins come in a range of sizes and specifications to meet your requirements.

To simplify your selection process, we have a wide range of standardised, open-plan cabins in stock for those that require instant space.

All our standard stock cabins are brand-new manufactured buildings, built specifically for our stock. These open-plan spaces provide the ideal solution for those who need a building quickly and can't wait for a built-to-order unit.

While the building is open-plan as standard, we can add features like partitions, a kitchenette and extra windows, ensuring the space meets your requirements.

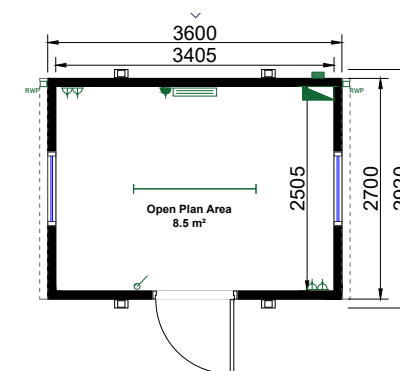

All buildings shown are currently in stock at our York depot, available to view on request and can be delivered within one week.

Our specification.

Every cabin from Portable Building Sales is built to a high standard, combining durability with a clean, professional finish. Our standard specification includes:

Internal finish:

Finished with a high-quality white vinyl-faced plasterboard. This provides a natural, light and airy finish whilst providing an easy-to-clean and wipe-down surface.

Standard electrics:

Fully fitted out with LED lighting, efficient electrical panel heating with 24/7 timers and double sockets. All wired back to a mains distribution board.

Windows:

High-quality, double-glazed, opening uPVC windows are fitted as standard with restrictors and trickle vents.

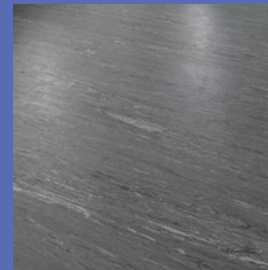

External doors:

High-quality, security steel doors fitted as standard with a 10-point locking system. Full-glazed aluminium door sets are also available, with both options coming in a range of colours and sizes to suit your requirements.

External finish:

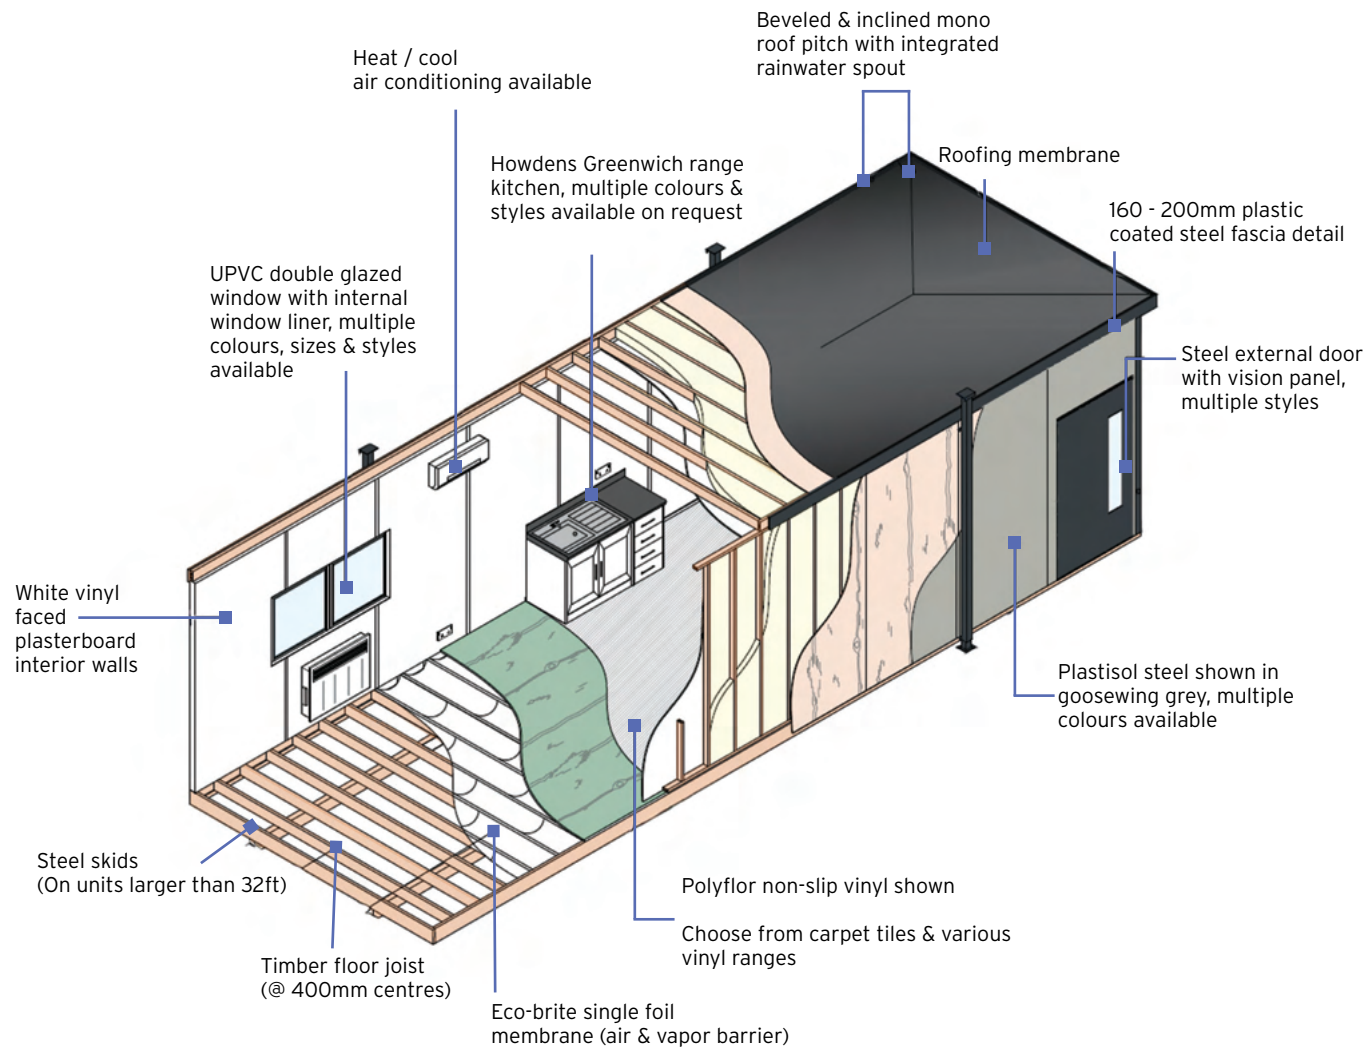

Durable, plastic-coated, steel external finish available in a variety of colours, backed by a 25-year performance guarantee.

Flooring:

Durable Polyflor vinyl floor covering or carpet tile alternative finishes are available throughout our buildings.

How our standard cabins are built.

Made in Britain

Built to order

High-quality materials

Built to UK building standards

Fully insulated

Sustainable construction

Layout flexibility

A range of external cladding finishes available

Customisable options.

Working with our supply chain, we offer a wide range of colours, layouts and specifications to help you create a building that works for your business. We have an in-house expert team available to provide guidance and knowledge, helping you design the most suitable solution.

- ✓ External finish - multiple colour options available
- ✓ Double-stacked options on all building sizes
- ✓ Partitions to create cellular offices / meeting rooms
- ✓ Toilet, shower and changing areas for operative welfare
- ✓ Kitchenette spaces - designed to accommodate your workforce
- ✓ Any window style and shape to increase aesthetics or security
- ✓ Flooring - vinyl or carpet, both with multiple colour options
- ✓ Upgrade to heat and cool air conditioning
- ✓ Data points with CAT 5 & 6 cabling

Cabins for purpose.

Our comprehensive range caters to various sectors, ensuring that every building meets the unique functional needs of our customers. We can meet your requirements.

Education blocks.

Case study.

New security hut for Iceland Foods.

Iceland needed a dedicated security hut at one of its warehouses to support its security team.

We delivered a 24ft x 10ft portable cabin to serve as both a staff room and a search room for their security operations.

Building features:

- Built-in worktop and reception desk
- Sliding window
- Dura composite cladding
- Separate search room
- LED lighting and air conditioning

“ From start to finish, the team made the process seamless, with great communication and quick responses to our requests. Given both the service received and the quality of the product, I'd highly recommend a portable building solution. ”

Karl Sewell, Regional Engineering / Property Manager
at Iceland

Case study.

Welfare facilities for Banks Group.

As part of their operations at Bantymock Quarry, Banks Group required a high-quality office and welfare solution to support both their site management team and on-site workforce.

Portable Building Sales supplied two brand new manufactured portable cabins alongside a modular office building, providing welfare facilities to deliver a complete site accommodation package.

Building features:

- Open-plan office
- Large meeting room
- Welfare and toilet facilities
- WC and shower block cabin
- Dedicated canteen cabin
- Drying rooms
- Kitchen facilities
- Welfare canteen cabin

Case study.

Co-op Academy Failsworth.

Co-op Academy Failsworth needed a modern, fit-for-purpose facility to replace their outdated food bank unit.

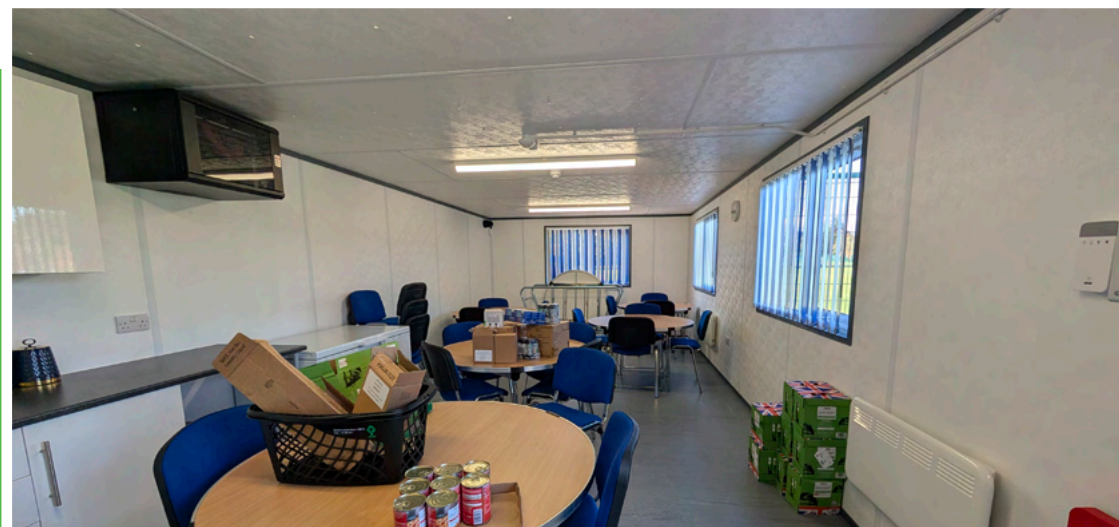

The new building needed to provide secure storage for dry and chilled goods, while also serving as a welcoming community space for local residents.

Building features:

- Food storage room
- Open-plan community room
- Kitchenette
- Security steel doors
- 10-point locking system
- CCTV system
- Data points
- Bespoke fencing
- Level-access path
